INSIDE THIS ISSUE

1. A Safer Community
2. Burn Season
3. Operations
4. Community Risk Reduction
5. Customer Care

“External Customer Service is a Reflection of Internal Customer Service.”

A Safer Community

With the rising risk of wildland fire danger we would like to help more of our communities in becoming Firewise.

What does it mean to be Firewise? Being Firewise is living safely near a fire-dependent natural community. Use Firewise principles, including landscape design and vegetation management, to protect homes.

In turn you will be safer and may possibly save money with homeowners insurance.

Please watch for a community meeting coming near you!

Burn Season

Copper Canyon Fire and Medical District will be expanding the burn season from February 1, 2020 through May 31st & August 1st through November 30, 2020. Burn permit holders will need to be sure to have a valid permit from our Administration office on Salt Mine Rd., the fire station on Main Street in Camp Verde, or from our fire station in Rimrock and activate it through the Cottonwood Dispatch Center (649-1397) prior to burning to ensure that the weather and wind conditions are proper and safe for the day.

Community Risk Reduction

Having the privilege of being the Fire Marshal and running the Community Risk Reduction Division is an honor and I would like the community to know that I place a high value on the health and safety of all of our residents, employees, and visitors. That being said I would like the community to know that I have an open door policy for everyone and I am always open to questions, concerns, new ideas, etc. So please feel free to contact me at:

928-567-9401 Office
 kkrebbs@ccfmd.az.gov
 26B West Salt Mine Road
 Camp Verde, AZ. 86322

Thank You,
 Ken Krebbs

"We would like to establish a Whole Community Approach for safety and compliance."

Customer Care

Did you know that we offer various services like; installing car seats, home safety inspections, fire station tours, Youth Fire Setter Program, business safety inspections, checking smoke detectors, and many other services.

We hope to pursue grants to help expand our services to continue our efforts in risk reduction for the community.
